Tips for Applying Smokey Eye and Other Types of Eye Makeup

Begin applying the smoky eyes makeup, 1st, apply a perfect eyeliner and the bottom eye shadow over the upper lid, mixing with a base brush. The following step is to apply a clean color over the eye, from eyelid to brow.

Eye makeup is that the fun part of applying cosmetics. Some simple eye makeup tips. Use eye shadows that work the character or to express mood. Apply the lightest shade you have got over the complete eyelid and therefore the medium shade on the lower eyelid. It's time to use dark colours for creating depth. Best place for doing that's the outer corner. Next, apply a little eyeliner, from the middle of the eye to the corners. Finally, apply mascara. For dark eyes, black or dark brown is recommended. A dark brown eye shadow should be applied from the lid to crease, for a higher effect. In the ultimate, apply two layers of black mascara and work a little on your eyebrows for a robust smoky eyes makeup.

Various Sorts of Eye Makeup

Tiny eyes-Use a lightweight shade of powder for the center of the lid and a darker shade in the outer edge.

Almond-formed eyes Use a light shade of powder from your lashes to the brow, a medium shade on your lid, and a darker shade on the outer third of your eyelid.

Spherical eyes-Use light coloured shadow over the entire lid and a darker shade within the crease. Apply eyeliner on each the high and bottom lids, and use mascara on the upper outer lashes.

Wide-set eyes-Use a darker shade within the inner corner, blending up and out. Concentrate eyeliner and mascara on the inner corner of the eye.

Close-set eyes-Use one color, varying from a light to darker shade. Start with the lightest shade one-third removed from the inner corner of your eye, mixing darker shades up and out. Use eyeliner on the outer [*fr1] of your eye.

Deep-set eyes-Use eyeliner on both the higher and lower lids, remembering to smudge and soften the line.
